NOTIFICATION

To: All local Municipal Building Inspectors
Re: Electrical Inspector Licensing

This notification is to advise you that, pursuant to Orange County Local Law #1 of 2024, all electrical inspections performed in your municipality must be performed by a person licensed by the Orange County Electrical Licensing Board to do electrical inspections. A link to a copy of the Local Law can be found on the webpage of the County Department of Consumer Affairs & Weights & Measures at www.orangecountygov.com/consumeraffairs. There are some limited exceptions noted in Section 8 of the law.

This Local Law is limited to ensuring various electrical work, including electrical inspections, is being performed by people properly licensed by the Orange County Electrical Licensing Board. It does not alter the authority of local building inspectors to enforce New York State Fire and Building Codes or to issue permits or certificates of occupancy.

A list of licensed inspectors can be found on the website of Consumer Affairs noted above. If you have any questions, please call Consumer Affairs at (845) 360-6700.

Timothy Flanagan,
Commissioner of Consumer Affairs and Weights & Measures
